## 1209.0.30.001 - Mesh Blocks (Draft) Digital Boundaries, Australia, 2005

Latest ISSUE Released at 11:30 AM (CANBERRA TIME) 17/03/2006

---

## Summary

### Main Features

Mesh Blocks are a new micro level of statistical geography for Australia. They will in future replace Census Collection Districts (CDs) as the smallest unit of the Australian Standard Geographical Classification (ASGC). This first release of Mesh Block digital boundaries is a draft version on which comments will be sought from expert users and key stakeholders.

This product is produced in CD-ROM format on a Annual basis.
